for Minnesota Businesses

GROWING REVENUE

With 95% of the world’s consumers located outside the United States, Minnesota companies can grow their business by exporting their U.S.A-made goods and services around the globe. Record-setting U.S. export levels underscore the vast opportunity. In 2022, U.S. exports increased 17.7%, to \$3.01 trillion, according to the U.S. Census Bureau and the Bureau of Economic Analysis, at the U.S. Department of Commerce. You can be part of this revenue stream with EXIM’s assistance.

For the Minneapolis metropolitan area, the top 5 export markets in 2022 were:

<i>Countries</i>	<i>Total Sales</i>
Canada	\$4.3 million
Mexico	\$3 million
China	\$2.3 million
Germany	\$1.2 million

WHAT'S STOPPING YOU FROM EXPORTING?

Imagine this: your U.S. business has identified an international buyer for its product, you have agreed on pricing, and your buyer wants open account credit terms. How will your company manage the risk of nonpayment by your foreign buyer? Insuring your foreign receivables through EXIM's Export Credit Insurance is a great place to start.

Export Credit Insurance is an insurance policy that covers foreign receivables.

Export Credit Insurance mitigates your nonpayment risk while empowering you to meet, or beat, your competitors by offering attractive credit terms. Your business can use open account credit terms to win new customers and increase sales to existing buyers.

Another benefit to insuring foreign receivables is that lenders will often accept them as collateral, expanding your borrowing base and improving cash flow.

Export Credit Insurance:

- ✔ Increases your ability to compete in international markets
- ✔ Protects your foreign receivables from nonpayment
- ✔ Expands your borrowing base for improved liquidity

BENEFITS INCLUDE:

Increased Sales

Every business wants to be more competitive. Providing open account credit terms is very appealing to foreign buyers and can be the difference between winning and losing a deal. When you give customers more time to pay, they have the financial flexibility to increase the size of their orders. Using open account credit terms can even speed up the delivery of goods because it avoids delays that can happen with a letter of credit or cash in advance.

Risk Prevention

The challenge for exporters, particularly small businesses, is clear. Selling to international buyers on open account credit terms can be risky. If the buyers don't pay, there is little recourse for a U.S.-based company and the financial impact can be significant. Export Credit Insurance mitigates the risk of nonpayment by insuring foreign receivables.

Cash Management

When your business needs cash to fulfill orders or pay for operations you often look to your local lender. These lenders are more likely to include foreign receivables in your borrowing base when those receivables are insured, giving you access to additional financing and improving cash flow.
