HOW EXIM HELPS U.S. BREWERIES GO GLOBAL

The Export-Import Bank of the United States (EXIM) supports American breweries looking to expand into international markets by reducing financial risks and easing access to capital.

Export Credit Insurance

Protects against nonpayment by international buyers so breweries can sell internationally with confidence.

Working Capital Loan Guarantee

Helps secure financing to produce and ship beer for export by backing loans from commercial lenders.

Loan Guarantees for Foreign Buyers

Makes it easier for overseas customers to buy U.S. beer by providing financing support.

Support for Small Businesses

Focuses on supporting American small breweries grow globally—nearly 80% of EXIM's deals support small businesses.

Export Guidance and Resources

Offers tools, training, and expert advice to help breweries navigate exporting successfully.

For more information on how EXIM can help take your brewery global, visit our [Beer Exporting Hub](#) or [request a consultation](#).
